Agenda

Homeownership Development

9:00-9:30	Registration & Refreshments
9:30 – 10:45	Challenges and Conflicts in Green Building Standards <ul style="list-style-type: none"> • Facilitators: Sarah Buckley, Clackamas Community Land Trust & Garrick Harmel, Willamette Neighborhood Housing Services • Compare different standard methods and funder incentives for green building (are there recommendations that need to be made to ensure standards aren't contradictory?) • What do you define as green? What trade-offs are you willing to take?
10:45-11:00	BREAK
11:00-12:00	Energy Tax Credits and Incentives <ul style="list-style-type: none"> • Alan Seymour, State Department of Energy • Phil Damiano Energy Trust of Oregon
12:00 – 12:30	Lunch
12:30- 1:15	Oregon Building Code Department: Green Building Program <ul style="list-style-type: none"> • Presenters: Gabrielle Schiffer, Green Building Services Coordinator, Oregon Building Codes Division & Ben Loftis, PCRI • Gabrielle will talk about actions the division is taking to 'green' Oregon's building codes and Ben will talk about their green row houses project
1:15 – 1:30	BREAK
1:30-3:15	New Developments in Energy Systems <ul style="list-style-type: none"> • Panel: Glenn Waer, Earth Advantage ; John Karasaki, PGE; and, Cliff Schrock, Solar Oregon • Questions to cover: <ol style="list-style-type: none"> 1. What do you think are quality, affordable energy options today for smaller-sized Oregon single-family residences? (eg, ductless mini-splits for heating, solar hot water, standard energy-efficient furnaces, air exchangers with a heating coil, etc) 2. Can you compare and contrast some of these in terms of pros and cons you've seen in your work? Ie, cost, durability, maintenance requirements, ease of operation, etc.
3:15-3:30	Evaluations, Next meeting topics
